

### **REMARKS**

The allowance of claims 1-17 is acknowledged. The Examiner has only raised formality matters relating primarily to the drawings. The Applicants have addressed each of these matters, as follows:

It was the belief of the Examiner that element 32 was not mentioned in the description. However, element 32 is the forward end region of the plunger 30 and is mentioned at page 11, line 24 of the specification. For clarity, the number 32 has been added at page 9, line 9, where this element was first mentioned.

Responding to the Examiner's comment on the duplicate use of the element 27, page 8, line 21 of the specification has been amended to change element 27 to element 29, and a corrected sheet of drawings which makes that change in Fig. 6 is also being submitted.

Next, the Examiner objected to the drawings as allegedly not showing the "about 90° of relative pivoting" discussed in claim 14. However, it is the position of the Applicants that such is shown in the drawings because the relative pivoting between the Fig. 1 position and the Fig. 5 position is about 90°. This is also described in the specification at page 11, lines 8-9.

Finally, a similar objection has been made to the drawings as allegedly failing to show the "about 50°" recitation of claim 16. But Figs. 5 and 6 demonstrate this rotation. Fig. 5 shows a position in which the plunger 30 has just engaged, and Fig. 6 shows a rotation of "about 50°" where the actuator has just been disengaged from the plunger.

In view of the foregoing amendments and discussions, it is believed that the formalities raised by the Examiner have been addressed, and the issuance of a formal Notice of Allowance of claims 1-17 is requested.

If any issues remain after this amendment, a telephone call to the undersigned would be appreciated.

Respectfully submitted,

A handwritten signature in cursive script, reading "Edward G. Greive", written in black ink.

Application No. 10/688,814  
Reply to Office Action of May 27, 2005

**Amendments to the Drawings:**

The attached sheet of drawings includes changes to Fig. 6. This sheet, which includes Fig. 5 and 6, replaces the original sheet including Figs. 5 and 6.

Attachment: Replacement Sheet.
